SUBJECT INDEX TO VOLUME 32 (1991)

Nervous system (incl. skull)

Diagnostic value of spinal computer tomography in patients with intraspinal metastases causing complete block on myelography 1
In vivo ^{1}H-spectroscopy of human intracranial tumors at 1.5 tesla. Preliminary experience at a clinical installation 95
Radiologic manifestations of focal cerebral hyperemia in acute stroke 100
Percutaneous drainage of abscess in psoas compartment and epidural space. Case report and review of the literature 159
Comparison of MR imaging and CT in pituitary macroadenomas 189
Clinical value of PET with ^{18}F-fluorodeoxyglucose and L-methyl-^{11}C-methionine for diagnosis of recurrent brain tumor and radiation injury 197
CT and angiography in a patient with three intracranial giant aneurysms 203
Coronal MR imaging of the normal 3rd, 4th, and 5th lumbar and 1st sacral nerve roots 210
Radiographic anatomy of the distal dural sac. A myelographic investigation of dimensions and termination 214
Volumes of chronic traumatic frontal brain lesions measured by MR imaging and CBF tomography . 271
MR imaging of spinal neurofibromatosis 279
CT five years after myelographic diagnosis of lumbar disk herniation 286
Central nervous system reactions to cervical myelography 411
Angiographic profile in childhood moyamoya disease. A study of 8 caucasian Indian children 488
Radiation doses to patients and personnel involved in embolization of intracerebral arteriovenous malformations 492
Tissue characterization of intracranial tumors by MR imaging. In vivo evaluation of T1- and T2-relaxation behavior at 1.5 T 498
MR imaging of spinal intramedullary tumors 505

Ear, nose, throat and eye

Sonographic staging of cancer of the mobile tongue 6
CT features in second cancers of the maxillary sinus 105
Changes in MR of malignant melanomas induced by glucose and fructose. A clinical and experimental investigation 206
Videography at submental electrical stimulation during apnea in obstructive sleep apnea syndrome. A case report 256
Salivary SPECT and factor analysis in Sjögren's syndrome 406

Bones, joints and soft tissues

Ultrasonographic measurements of the soft-tissue of the upper jaw 3
Osteoid osteomas of the hand. Report of three cases and review of the literature 62
Progeria syndrome with characteristic deformation of proximal radius observed on CT 67
Assessment of bone mineral content in the internal bone volume 69
Radiographic anatomy of the distal dural sac. A myelographic investigation of dimensions and termination 214
MR imaging of pediatric hematologic disorders 267
CT five years after myelographic diagnosis of lumbar disk herniation 286
Primary bone tumors. MR morphologic appearance correlated with pathologic examinations 290
Limitations of quantitative CT in corticosteroid induced osteopenia 339
Traumatic trabecular lesions observed on MR imaging of the knee 389
High-resolution real-time sonography and MR imaging in the assessment of osteocartilaginous exostoses 393
MR imaging of patellar cartilage degeneration at 0.02 T. Study of 23 cadaveric patellae 514
Tumor seeding occurring after fine-needle biopsy of abdominal malignancies 518

Breast

Digital luminescence mammography. Early clinical experience 110
Ultrasonography of breast lesions detected in mammography screening 220
Mammographic follow-up after breast conserving surgery and postoperative radiotherapy without boost irradiation for mammary carcinoma 398

Cardiovascular system

Ultrasound guidance for pericardiocentesis 9
Atherosclerosis-related measures in digitized femoral arteriograms 24
Life-threatening post-nephrolithotomy hemorrhage resulting in cessation of kidney function, treated by transcatheter arterial embolization with subsequent restoration of excretory function 47
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
Effects of contrast media on the RR and QT interval

SUBJECT INDEX TO VOLUME 32 (1991)

Traumatic trabecular lesions observed on MR imaging of the knee 389
High-resolution real-time sonography and MR imaging in the assessment of osteocartilaginous exostoses 393
MR imaging of patellar cartilage degeneration at 0.02 T. Study of 23 cadaveric patellae 514
Tumor seeding occurring after fine-needle biopsy of abdominal malignancies 518

Breast

Digital luminescence mammography. Early clinical experience 110
Ultrasonography of breast lesions detected in mammography screening 220
Mammographic follow-up after breast conserving surgery and postoperative radiotherapy without boost irradiation for mammary carcinoma 398

Cardiovascular system

Ultrasound guidance for pericardiocentesis 9
Atherosclerosis-related measures in digitized femoral arteriograms 24
Life-threatening post-nephrolithotomy hemorrhage resulting in cessation of kidney function, treated by transcatheter arterial embolization with subsequent restoration of excretory function 47
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
Effects of contrast media on the RR and QT interval

during coronary arteriography 120
Left ventricular systolic and diastolic function during coronary arteriography before and after acute left ventricular failure in dogs. A comparison between iodixanol, iohexol and ioxaglate 124
Effect of an iso-osmolar contrast medium on pulmonary arterial pressure at pulmonary angiography . . 134
Transfemoral digital subtraction aortography. Are diluted high osmolar contrast media acceptable? . . . 137
Arterial phleobography of the leg 141
Diagnostic significance of angiographically observed visceral aneurysms with regard to polyarteritis nodosa 143
Demonstration of hepatic veins by computed tomography using axial and angulated scanning 149
Radiographic changes in cardiac contours following heart transplantation. Clarification by MR imaging 183
CT and angiography in a patient with three intracranial giant aneurysms 203
Evaluation of heart size and pulmonary vasculature. Conventional chest roentgenography and image intensifier photofluorography compared 226
Percutaneous local arterial thrombolytic infusion. Therapeutic effects and complications 305
Transcatheter embolization of testicular vein for varicocele testis 311
Percutaneous embolization of ruptured splanchnic artery pseudoaneurysms 349
Influence of renal angiography in living potential kidney donors 368
Identifying high-risk patients for percutaneous transluminal angioplasty of subclavian and innominate arteries 381
Aortography delays surgery of CT proven acute traumatic rupture of the thoracic aorta. Case report . . 386
Ultrasonographic anatomy of veins draining the left lobe of the liver. Feasibility of live related transplantation 479
Clinical and angiographic features of nonspecific aorto-arteritis in children and adults 485
Angiography profile in childhood moyamoya disease. A study of 8 caucasian Indian children 488
Radiation doses to patients and personnel involved in embolization of intracerebral arteriovenous malformations 492

Mediastinum and respiratory system

Multiple-beam equalization radiography in chest radiology. Image quality and radiation dose considerations 12
Digital luminescence radiography in interstitial lung disease. A receiver operating characteristics (ROC) analysis 18
Endotracheal expandable metallic stent placement in dogs 79
Dynamic imaging of pulmonary ventilation. Description of a novel digital fluoroscopic system 114
Radiographic changes in cardiac contours following heart transplantation. Clarification by MR imaging 183
Videoradiography at submental electrical stimulation during apnea in obstructive sleep apnea syndrome. A case report 256
Powdered diatrizoic acid for radiography of the respiratory tract. Part I. Experimental investigation . . . 415
Digital image processing to remove blur from linear tomography of the lung 421
High resolution CT and bronchography in the assessment of bronchiectasis 439
Efficacy of inverted digital luminescence radiography in evaluating chest neoplasms 442
CT for predicting the resectability of lung cancer. A prospective study 449
CT findings of endobronchial metastasis 455
Radiographic grading of extrinsic allergic alveolitis. A comparison between a modified ILO classification and a descriptive method 461
Powdered diatrizoic acid for radiography of the respiratory tract. Part II. Clinical application 467
Lung deposits of Lipiodol in normal and cirrhotic rats 474

Digestive tract

Differential diagnosis of gastric adenoma and type IIa early gastric cancer 37
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
Percutaneous duodenostomy – alternative route for enteral nutrition 153
Superparamagnetic particles as oral contrast medium in MR imaging of patients with malignant lymphoma 232
Effect of chemotherapy and radiotherapy on squamous cell carcinoma of the esophagus. A preoperative radiologic evaluation 247
Videoradiography at submental electrical stimulation during apnea in obstructive sleep apnea syndrome. A case report 256
Percutaneous gastrostomy. A clinical and experimental study 302
Laser therapy and insertion of Wallstents for palliative treatment of esophageal cacinoma 345
Percutaneous embolization of ruptured splanchnic artery pseudoaneurysms 349

Liver, biliary tract

CT of liver steatosis after subtotal pancreratectomy . 30
Hepatocellular carcinoma in extrahepatic bile ducts . 34
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
Massive abdominal lymph node metastses in hepato-

cellular carcinoma 88
Diagnostic significance of angiographically observed visceral aneurysms with regard to polyarteritis nodosa 143
Demonstration of hepatic vein by computed tomography using axial and angulated scanning 149
Perivascular low attenuation zone at CT of liver transplants. A follow-up study 244
Common bile duct cancer with massive necrosis mimicking choledochal dilatation on CT. Case report . 337
Percutaneous embolization of ruptured splanchnic artery pseudoaneurysms 349
Scintigraphy with ^{99m}Tc-HMPAO labeled leukocytes in acute cholecystitis 359
Three-dimensional imaging of the liver 432
Lung deposits of Lipiodol in normal and cirrhotic rats 474
Ultrasonographic anatomy of veins draining the left lobe of the liver. Feasibility of live related transplantation 479
Sclerotherapy for ablation of the gallbladder after gallstone lithotripsy with a mechanical lithotriptor. An experimental study in pigs on the effect of absolute ethanol on edematous gallbladder wall 521

Spleen, pancreas

Short pancreas in polysplenia syndrome 299
Percutaneous embolization of ruptured splanchnic artery pseudoaneurysms 349

Abdomen

Massive abdominal lymph node metastases in hepatocellular carcinoma 88
Diagnostic significance of angiographically observed visceral aneurysms with regard to polyarteritis nodosa 143
Superparamagnetic particles as oral contrast medium in MR imaging of patients with malignant lymphoma 232
Short pancreas in polysplenia syndrome 299
Peritoneal mesothelioma. Radiologic appearances correlated with histology 355
Tumor seeding occurring after fine-needle biopsy of abdominal malignancies 518

Urogenital system

MR imaging of renal transplant rejection 42
Life-threatening post-nephrolithotomy hemorrhage resulting in cessation of kidney function, treated by transcatheter arterial embolization with subsequent restoration of excretory function 47
Cutaneous seeding of renal carcinoma by Chiba needle aspiration biospy. Case report 50
Features of irradiated urinary bladder tumors and their correlation with malignancy observed on computed tomography 57
CT in primary malignant germ cell tumors of the retroperitoneum 155
Percutaneous drainage of abscess in psoas compartment and epidural space. Case report and review of the literature 159
Percutaneous nephrolithotomy through an intercostal approach 162
Diagnostic value of resistive index of renal transplants in early postoperative period 166
Air in vagina. Indicator of intrapelvic pathology on CT 170
Renal angiomyolipoma. Ultrasonographic, CT, angiographic, and histologic correlation 239
MR imaging of adult glomerulocystic kidney disease. A case report 251
Spontaneous percutaneous delivery of a renal stone. Case report 254
Transcatheter embolization of testicular vein for varicocele testis 311
Paroxysmal nocturnal hemoglobinuria. Case report of MR imaging and CT findings 315
Characteristic fat-fluid level at ultrasonography of ovarian dermoid cyst 317
Absence of functional renal effects of uro-angiographic contrast media on post-ischemic rat kidneys 325
Radiologic findings in renal oncocytoma 363
Influence of renal angiography in living potential kidney donors 368
Radioimmunoscintigraphy of gynecologic tumors with ^{131}I-labeled anti-PLAP monoclonal antibodies 375
Effect of indomethacin and salt depletion on renal proton MR imaging. An experimental study in the rat 524

Endocrine system

CT in primary malignant germ cell tumors of the retroperitoneum 155
Comparison of MR imaging and CT in pituitary macroadenomas 189
Accuracy of adrenal biopsy guided by ultrasound and CT 371
Angiographic profile in childhood moyamoya disease. A study of 8 caucasian Indian children 488
Preoperative localization of enlarged parathyroid glands with ultrasonically guided fine needle aspiration for parathyroid hormone assay 493

Lymphatic system

Ultrasound-guided aspiration cytology of enlarged lymph nodes 53
Massive abdominal lymph node metastases in hepatocellular carcinoma 88
Superparamagnetic particles as oral contrast medium in MR imaging of patients with malignant lymphoma 232
Perivascular low attenuation zone at CT of liver trans-

plants. A follow-up study 244
Ultrasonography of cervical lymphadenopathy in a patient with Kikuchi's disease 260

Pediatric radiology

MR imaging of pediatric hematologic disorders 267
Clinical and angiographic features of nonspecific aorto-arteritis in children and adults 485
Angiographic profile in childhood moyamoya disease. A study of 8 caucasian Indian children 488

Digital radiography

Digital luminescence radiography in interstitial lung disease. A receiver operating characteristics (ROC) analysis 18
Atherosclerosis-related measures in digitized femoral arteriograms 24
Digital luminescence mammography. Early clinical experience 110
Dynamic imaging of pulmonary ventilation. Description of a novel digital fluoroscopic system 114
Transfemoral digital subtraction aortography. Are diluted high osmolar contrast media acceptable? . . . 137
Arterial phlebography of the leg 141
Digital image processing to remove blur from linear tomography of the lung 421
Efficacy of inverted digital luminescence radiography in evaluating chest neoplasms 442

Ultrasonography

Ultrasonographic measurement of the soft-tissue of the upper jaw 3
Sonographic staging of cancer of the mobile tongue 6
Ultrasound guidance for pericardiocentesis 9
Ultrasound-guided aspiration cytology of enlarged lymph nodes 53
Diagnostic value of resistive index of renal transplants in the early postoperative period 166
Ultrasonography of breast lesions detected in mammography screening 220
Evaluation of heart size and pulmonary vasculature. Conventional chest roentgenography and image intensifier photofluorography compared 226
Renal angiomyolipoma. Ultrasonographic, CT, angiographic, and histologic correlation 239
Ultrasonography of cervical lymphadenopathy in a patient with Kikuchi's disease 260
Characteristic fat-luid level at ultrasonography of ovarian dermoid cyst 317
Radiologic findings in renal oncocytoma 363
Accuracy of adrenal biopsy guided by ultrasound and CT 371
High-resolution real-time sonography and MR imaging in the assessment of osteocartilaginous exostoses 393
Preoperative localization of enlarged parathyroid glands with ultrasonically guided fine neeedle aspiration for parathyroid hormone assay 403
Ultrasonographic anatomy of veins draining the left lobe of the liver. Feasibility of live related transplantation 479

Computed tomography

Diagnostic value of spinal computer tomography in patients with intraspinal metastases causing complete block on myelography 1
CT of liver steatosis after subtotal pancreatectomy . . 30
Features of irradiated urinary bladder tumors and their correlation with malignancy observed on computed tomography 57
Osteoid osteomas of the hand. Report of three cases and review of the literature 62
Progeria syndrome with characteristic deformation of proximal radius observed on CT 67
Assessment of bone mineral content in the internal bone volume 69
CT-guided core biopsy using a new guidance device 83
Radiologic manifestations of focal cerebral hyperemia in acute stroke 100
CT features in second cancers of the maxillary sinus 105
CT in primary malignant germ cell tumors of the retroperitoneum 155
Air in vagina. Indicator of intrapelvic pathology on CT 170
Comparison of MR imaging and CT in pituitary macroadenomas 189
Clinical value of PET with ^{18}F-fluorodeoxyglucose and L-methyl-^{11}C-methionine for diagnosis of recurrent brain tumor and radiation injury 197
Renal angiomyolipoma. Ultrasonograhic, CT, angiographic, and histologic correlation 239
Perivascular low attenuation zone at CT of liver transplants. A follow-up study 244
Effect of chemotherapy and radiotherapy on squamous cell carcinoma of the esophagus. A preoperative radiologic evaluation 247
Five years after myelographic diagnosis of lumbar disk herniation 286
Paroxysmal nocturnal hemoglobinuria. Case report of MR imaging and CT findings 315
Common bile duct cancer with massive necrosis mimicking choledochal dilatation on CT. Case report . 337
Limitations of quantitative CT in corticosteroid induced osteopenia 339
Radiologic findings in renal oncocytoma 363
Accuracy of adrenal biopsy guided by ultrasound and CT 371
Aortography delays surgery of CT proven acute traumatic rupture of the thoracic aorta. Case report . . 386
Three-dimensional imaging of the liver 432
High resolution CT and bronchography in the assess-

ment of bronchiectasis 439
CT for predicting the resectability of lung cancer. A prospective study 449
CT findings of endobronchial metastasis 455

MR imaging and spectroscopy

Effect of superparamagnetic particles in agarose gels. A magnetic resonance imaging study 74
In vivo ^{1}H-spectroscopy of human intracranial tumors at 1.5 tesla. Preliminary experience at a clinical installation 95
Radiographic changes in cardiac contours following heart transplantation. Clarification by MR imaging 183
Comparison of MR imaging and CT in pituitary macroadenomas 189
Changes in MR of malignant melanomas induced by glucose and fructose. A clinical and experimental investigation 206
Coronal MR imaging of the normal 3rd, 4th, and 5th lumbar and 1st sacral nerve roots 210
Superparamagnetic particles as oral contrast medium in MR imaging of patients with malignant lymphoma 232
MR imaging of adult glomerulocystic kidney disease. A case report 251
Volumes of chronic traumatic frontal brain lesions measured by MR imaging and CBF tomography . 271
MR imaging of spinal neurofibromatosis 279
Primary bone tumors. MR morphologic appearance correlated with pathologic examinations 290
Paroxysmal nocturnal hemoglobinuria. Case report of MR imaging and CT findings 315
Traumatic trabecular lesions observed on MR imaging of the knee 389
High-resolution real-time sonography and MR imaging in the assessment of osteocartilaginous exostoses 393
Nickel-doped agarose gel phantoms in MR imaging 426
Tissue characterization of intracranial tumors by MR imaging. In vivo evaluation of T1- and T2-relaxation behavior at 1.5 T 498
MR imaging of spinal intramedullary tumors 505
MR imaging of patellar cartilage degeneration at 0.02 T. Study of 23 cadaveric patellae 514
Effect of indomethacin and salt depletion on renal proton MR imaging. An experiemntal study in the rat 524

Nuclear radiology

Radiologic manifestations of focal cerebral hyperemia in acute stroke 100
Clinical value of PET with ^{18}F-fluorodeoxyglucose and l-methyl-^{11}C-methionine for diagnosis of recurrent brain tumor and radiation injury 197
Volumes of chronic traumatic frontal brain lesions measured by MR imaging and CBF tomography . 271
Short pancreas in polysplenia syndrome 299
Scintigraphy with ^{99m}Tc-HMPAO labeled leukocytes in acute cholecystitis 359
Radioimmunoscintigraphy of gynecologic tumors with ^{131}I-labeled anti-PLAP monoclonal antibodies 375
Salivary SPECT and factor analysis in Sjögren's syndrome 406

Interventional radiology

Ultrasound guidance for pericardiocentesis 9
Life-threatening post-nephrolithotomy hemorrhage resulting in cessation of kidney function, treated by transcatheter arterial embolization with subsequent restoration of excretory function 47
Cutaneous seeding of renal carcinoma by Chiba needle aspiration biopsy. Case report 50
Ultrasound-guided aspiration cytology of enlarged lymph nodes 53
Endotracheal expandable metallic stent placement in dogs 79
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
Percutaneous dueodenostomy – alternative route for enteral nutrition 153
Percutaneous drainage of abscess in psoas compartment and epidural space. Case report and review of the literature 159
Percutaneous nephrolithotomy through an intercostal approach 162
Effects of varying potential and electrolytic dosage in direct current treatment of tumors 174
Electrolysis with different electrode materials and combined with irradiation for treatment of experimental rat tumors 178
Percutaneous gastrostomy. A clinical and experimental study 302
Percutaneous local arterial thrombolytic infusion. Therapeutic effects and complications 305
Transcatheter embolization of testicular vein for varicocele testis 311
Laser therapy and insertion of Wallstents for palliative treatment of esophageal carcinoma 345
Percutaneous embolization of ruptured splanchnic artery pseudoaneurysms 349
Accuracy of adrenal biopsy guided by ultrasound and CT 371
Identifying high-risk patients for percutaneous transluminal angioplasty of subclavian and innominate arteries 381
Preoperative localization of enlarged parathyroid glands with ultrasonically guided fine needle aspiration for parathyroid hormone assay 403
Radiation doses to patients and personnel involved in embolization of intracerebral arteriovenous malfor-

mations 491
Tumor seeding occurring after fine-needle biopsy of abdominal malignancies 518
Sclerotherapy for ablation of the gallbladder after gallstone lithotripsy with a mechanical lithotriptor. An experimental study in pigs on the effect of absolute ethanol on edematous gallbladder wall 521

Experimental radiology

Effect of superparamagnetic particles in agarose gels. A magnetic resonance imaging study 74
Endotracheal expandable metallic stent placement in dogs 79
Left ventricular systolic and diastolic function during coronary arteriography before and after acute left ventricular failure in dogs. A comparison between iodixanol, iohexol and ioxaglate 124
Effects of varying potential and electrolytic dosage in direct current treatment of tumors 174
Electrolysis with different electrode materials and combined with irradiation for treatment of experimental rat tumors 178
Muscle toxicity of diatrizoate and iohexol in rabbits. A model for local tissue damage 182
Percutaneous gastrostomy. A clinical and experimental study 302
Absence of functional renal effects of uro-angiographic contrast media on post-ischemic rat kidneys 325
Powdered diatrizoic acid for radiography of the respiratory tract. Part I. Experimental investigation . . . 415
Lung deposits of Lipiodol in normal and cirrhotic rats 474
Sclerotherapy for ablation of the gallbladder after gallstone lithotripsy with a mechanical lithotriptor. An experimental study in pigs on the effect of absolute ethanol on edematous gallbladder wall 521
Effect of indomethacin and salt depletion on renal proton MR imaging. An experimental study in the rat 524

Contrast media and other drugs

Effect of superparamagnetic particles in agarose gels. A magnetic resonance imaging study 74
Left ventricular systolic and diastolic function during coronary arteriography before and after acute left ventricular failure in dogs. A comparison between iodixanol, iohexol and ioxaglate 124
Comparison of iopromide versus iohexol in aortobifemoral arteriography. A Swedish multi-center study of 446 patients 130
Transfemoral digital subtraction aortography. Are diluted high osmolar contrast media acceptable? . . . 137
Muscle toxicity of diatrizoate and iohexol in rabbits. A model for local tissue damage 182
Changes in MR of malignant melanomas induced by glucose and fructose. A clinical and experimental investigation 206
Superparamagnetic particles as oral contrast medium in MR imaging of patients with malignant lymphoma 232
Renal effect of iopentol and iohexol after intravenous injection 320
Absence of functional renal effect of uro-angiographic contrast media on post-ischemic rat kidneys 325
Central nervous system reactions to cervical myelography 411
Powdered diatrizoic acid for radiography of the respiratory tract. Part I. Experimental investigation . . . 415
Nickel-doped agarose gel phantoms in MR imaging 426
Powdered diatrizoic acid for radiography of the respiratory tract. Part II. Clinical application 467
Lung deposits of Lipiodol in normal and cirrhotic rats 474
Effect of indomethacin and salt depletion on renal proton MR imaging. An experimental study in the rat 524

Physics and technique

Multiple-beam equalization radiography in chest radiology. Image quality and radiation dose considerations 12
Prevention of gastric complications in hepatic arterial chemoembolization. Balloon catheter occlusion technique 81
CT-guided core biopsy using a new guidance device 83
Electrical impedance tomography. A non-invasive imaging system, for temperature monitoring 85
Arterial phlebography of the leg 141
Videoradiography at submental electrical stimulation during apnea in obstructive sleep apnea syndrome. A case report 256
Nickel-doped agarose gel phantoms in MR imaging 426
Three-dimensional imaging of the liver 432
Efficacy of inverted digital luminescence radiography in evaluating chest neoplasms 442

Research methodology

A radiologic reporting system for computer-aided diagnosis with associated database. Hokkaido University Diagnostic Information Processing System – HDIPS 329
Radiograpic grading of extrinsic allergic alveolitis. A comparison between a modified ILO classification and a descriptive method 461
